## PROJECTS & EXPERIENCE

### Robot Car Project

- Designed and developed an autonomous robot car with sensor-based navigation.
- Programmed movement logic and obstacle detection using [mention tech/tools used].
- Led the project team, ensuring timely completion and successful demonstration

### E-Commerce Website

- Built a full-stack online store with product management and authentication.
- Used Next.js, Sanity.io, and Firebase for seamless performance.
- Focused on responsive design and user-friendly UI.

### Hospital Management System

- Developed a full software-based system for hospital management.
- Implemented patient records, appointment scheduling, and billing features.
- Used Java, OOP principles, and database integration for efficient performance.

### Water Level Detector

- Designed and built a sensor-based system to monitor and indicate water levels.
- Applied logic gates and circuit design principles for accurate detection.
- Enhanced understanding of hardware-software integration.

### Data Structures & Algorithms (DSA) Project

- Created a project implementing advanced DSA concepts for optimized performance.
- Focused on sorting, searching, and efficient data manipulation techniques.
- Improved problem-solving skills through algorithmic design

## SKILLS

**Programming Languages:** Java, Python, JavaScript, C++, SQL

**Web Development:** HTML, CSS, TypeScript, React.js, Next.js, Sanity.io

**Software & Tools:** Git/GitHub, Vercel, VS Code, Firebase, WordPress

**Core Concepts:** Data Structures & Algorithms, OOP, Database Management

**Soft Skills:** Team Collaboration, Problem-Solving, Leadership

## EDUCATION

### **Bachelor of Science in Software Engineering**

Sindh Madressatul Islam University | 2023– Present

### **Intermediate in Pre-Engineering**

Govt. Collage for womans | 2021–2023

### **Matriculation in Computer Science**

Be Prince Kids School | 2019–2021

## LANGUAGES

 **English – Fluent**

 **Urdu – Native**

 **Arabic – Basic**

## COURSES & CERTIFICATES

### **Artificial Intelligence, Web 3.0 & Metaverse**

Governor Sindh Initiative | 2023– Present

### **Machine Learning Certificate**

IBM – Coursera | 2025

### **Graphic Designing Certificate**

Bano Qabil | 2024

### **Freelancing Course**

digiskills | 2024
